

This term are learning about **OURSELVES** with a focus on **SCIENCE**

Parts of the Body

Key Vocabulary

senses

All of the ways we experiences the world around us. Our five senses are sight, hearing, touch, taste and smell.

sight

Your eyes let you see all the things around you.

hearing

Your ears let you listen to all the sounds around you.

touch

Your skin gives you the sense of touch. You can feel different textures.

taste

Your sense of taste comes from your tongue. You might have some tastes you like and some tastes you don't like.

smell

You smell different things using your nose. Your nose can tell if things smell nice or not.

skeleton

Skeletons are on the inside of our bodies. They are made up of bones to support our body and protect our organs.
